Education towards development

*Education
never
decays*

Before starting the lessons in the morning , the learners and teachers first discuss about the importance of education and what they can do to change the country in terms of development .They also focus on goals and performance in the class and on the national level as it is their mission .

Science and technology

Learners are motivated to love science and technology as future generation to promote positive change to every citizens

Performance

Learners are motivated to work on performance contract as it is the country aim. They set the pass mark and set some strategies which will guide them to reach at the goals. After setting goal and strategies they present them to their teachers and parents for clarification

Performance appraisal

Top six

Sports and Entertainment
